

Depuis près de 40 ans, le **GIE Défense NBC** fédère, PME innovantes, grands groupes et laboratoires de recherche de la BITD française spécialisés en NRBC (nucléaire, radiologique, biologique, chimique).

Face à l'évolution des menaces (militaires, terroristes, industrielles ou environnementales) le groupement développe des solutions opérationnelles et durables au service des forces armées, de sécurité et de protection civile.

Grâce à son expertise unique et à ses relations privilégiées avec les autorités françaises, le **GIE Défense NBC** s'impose comme un ambassadeur du savoir-faire français à l'international, œuvrant à la protection des forces, des populations et des territoires.

www.defensenbc.fr

For nearly 40 years, the **GIE Defense NBC** has brought together innovative SMEs, major industrial groups, and research laboratories from the French Defence Technological and Industrial Base (DTIB), specialized in CBRN (nuclear, radiological, biological, and chemical) protection.

In response to evolving threats (whether military, terrorist, industrial, or environmental) the consortium develops operational and sustainable solutions for the armed forces, security services, and civil protection.

With its unique expertise and close ties to the French authorities, the **GIE Defense NBC** stands as an ambassador of French know-how on the international stage, working to safeguard forces, populations, and territories.
